### **Petition History**

On May 9, 2011, the City Council forwarded the Westfield Thoroughfare Plan Addendum (the "Addendum") to the Advisory Plan Commission (the "APC"). The Addendum received a public hearing at the June 6, 2011 APC meeting.

---

### **Procedural**

- The APC may take action at the June 20, 2011 meeting.

---

### **Summary**

The proposed modifications to the Westfield Thoroughfare Plan are necessary in order to accurately depict the street network that will serve Grand Park and the surrounding area. The modifications are highlighted in the Addendum (see Exhibit 2). The Addendum includes two additions: one is a link connecting Wheeler Road and Tomlinson Road; the other is a realigned intersection where Horton Road, 193<sup>rd</sup> Street, Springmill Road, and 191<sup>st</sup> Street converge. The Addendum also removes a number of road segments, which are no longer needed as a result of the two additions.

As requested at the June 6, 2011 APC meeting, the thoroughfare plan map has been updated to align Wheeler Road and Westfield Park Road (highlighted in pink on the map in Exhibit 2). This modification is consistent with the U.S. 31 Major Moves plans for aligning this intersection.
